From the net proceeds, a portion will go to cancer research. Cancer touches us all. All of us have a role to play in continuing the progress against cancer. Our most powerful weapon is knowledge. This grows and spreads with the steady flow of communication within and between the members of the scientific community and the public, including representatives of the news media; government officials and policy-makers; and cancer patients, survivors and their families. Where will the cure for cancer come from? The answer is research. Cancer is not a single disease, but more than 200. In the U.S. and around the world, men and women in laboratories and clinics, universities, medical centers, government and industry, are working not only to overcome this affliction that claims half a million American lives each year, but also to prevent it. Also the LA-Orange County Line Chapter's Educational Fund will assist the local chapter REALTORS® and members with their continuing education in real estate.

Thank you for your time and consideration, we look forward to your positive response. If you have any questions, you may call Betty Lopez, 2008 Golf Tournament Chair at (562) 843-3178 and/or Steve Lopez (562) 843-3184.
